The EuroBake Deck Ovens exterior panels are stainless steel, making cleaning easy. The digital controller makes it easy to use with the timer and temperature being adjustable, allowing for excellent and even baking results. The manual adjustable oven damper vent gives the baker control when needed. There are the options of 1 to 4 decks that are modular and can be stacked on top of each other and configured to suit the baker's needs.

Large glass doors make viewing of the product while baking easy, while legs of different heights are used when 3 or less decks are assembled. Castors are provided so the oven can be moved for cleaning and maintenance.

Model		ESM-932	ESM-933	ESM-934
Capacity	Decks	2	3	4
Baking Chamber Dimensions	Width	1470mm	1470mm	1470mm
	Depth	840mm	840mm	840mm
	Height	210mm	210mm	210mm
