

Dividers

BAKERY
SERVICES

The EuroBake 30 piece semi-automatic divider has been one of our favourites for years, offering durability and reliability, at a reasonable price. It has an oil filled operating bath (no springs) of which the thrust can be set to allow for the ultimate in rounding. There is an independent weight gauge for easy weight adjustment. This machine is fitted with a counterweight lever, to maintain the operator bar in a vertical position when not in use. Tin blades are fitted to this machine, both to prevent dough sticking and corrosion. It is supplied with three moulding plates.

EuroBake

The EuroBake Hand Divider has been a long-time friend to many small operations, offering a 36-piece yield in the simplest form. There is no electricity required to operate this machine. The equipment is supplied with two product bowls. With safety in mind it can be bolted to a bench through the securing holes.

The D20 is constructed of a cast aluminium head, of which the internals are Teflon coated. The exterior body is constructed of stainless steel offering two easy access doors for cleaning and servicing of the hydraulic pump system of which the pressures can be adjusted to accommodate various doughs. For added flexibility, these machines can also be used as pastry blockers. Please ask us for further information on this if required.

ESM-536	
Dough Capacity	
Number of Parts	36
Dough Piece Weight Range	30-120gm
Dimensions	
Width	480mm
Depth	360mm
Height	600mm
Height Including Handle	1120mm
Weight	80kg

D-20	
Dough Capacity	
Division Pieces	20
Dough Capacity	16kg
Dough Piece Weight Range	100-800gm
Motor	
Motor Power	1.5kW
Electrical Requirements	
Voltage	400V
Frequency	50Hz
Phases	3
Connection	4-Pin PDL 56 PA 416
Dimensions	
Width	610mm
Depth	680mm
Height	1000mm
Weight	350kg

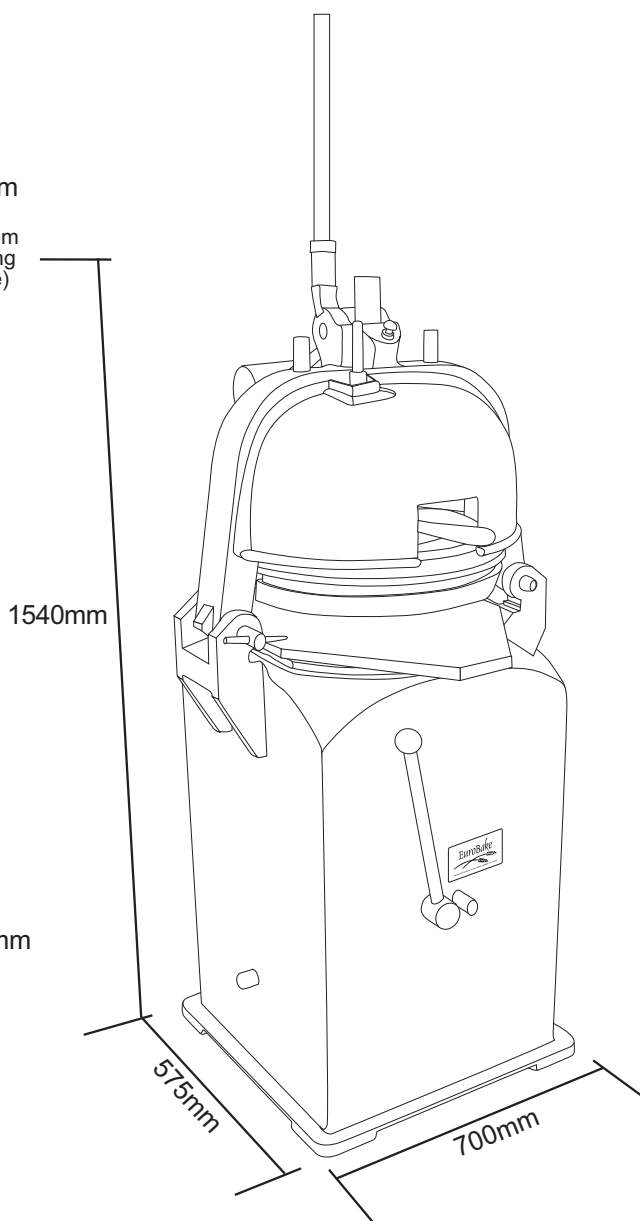

ESM-430	
Dough Capacity	
Number of Parts	30
Dough Piece Weight Range	40-120gm
Motor	
Motor Power	1.125kW
